MUST KEEP THE CITY CLEAN DECLARES BOARD OF TRADE.

TO FURNISH ENTERTAINMENT
FOR VISITORS IN DAYTONA.

MANY THINGS TO BE ACCOMPLISHED BY NEW ORGANIZATION IF ALL SUGGESTIONS ARE CARRIED OUT.

PERMANENT COMMITTEES.
Transportation—E. F. Oates, Geo. Balch, G. B. Seaman.
Streets, Roads and Bridges—Henry Titus, E. L. Gunn, Joe Osborne.
Sanitation—Lew Smith, W. H. Wright, B. Deacon.
Membership—E. J. Mills, W. M. Hankins, J. D. C. Morris.
Publicity and Advertising—T. E. Fitzgerald, L. M. Waite, R. N. Conrad.
Arbitration—George Smith, C. E. Gardiner, S. H. Gove.
Commercial Relations and Rural Industries—B. Foster, George H. Clark, Geo. H. Gardiner.

The new Daytona Board of Trade will be a busy organization for some time if all of the suggestions for changes and improvements made at the first meeting at the city hall Friday evening are accepted and carried out by the body.

One of the definite actions taken at the meeting was that the board ask Mayor Greene to enforce the city ordinance relating to the throwing of papers, trash and litter on the streets and in the parkage and yards, and the Mayor will be informed that it is the sense of the board that this ordinance shall be rigidly enforced in future to keep the city of Daytona clean and attractive for visitors.

Another suggestion favorably acted upon was that there should be more street lighting, particularly on Beach street, and a committee will be appointed by President Rowe to make arrangements with the business men and the council for a number of big lights, similar to the one now in use in front of the Crystal theater, to be placed on Beach street.

For the remainder of this season some kind of evening entertainment will be furnished the citizens and tourists once each week and this entertainment will probably be in the nature of fireworks, the display to be made on the bank of the Halifax. A committee to arrange for this entertainment was ordered by vote of the board and the committee will use its judgment in selecting the best kind of evening entertainment.

The first meeting of the board on Friday evening was an enthusiastic one, although the attendance was not as large as was expected. Some reasons given for this were because of other attractions in the city and other business arrangements.

The new constitution and by-laws were read by the committee and adopted by the board with a few minor changes from the way in which they were reported. The by-laws provide that the regular

meetings of the board shall be held the first and third Monday evenings of each month and by this rule the next meeting of the board will be held next Monday evening at the city hall at 8 o'clock.

During the time between now and next meeting Monday evening, efforts will be made to increase the membership of the new board to include all business men and persons connected with business interest in Daytona and its suburbs. It was brought out at the gathering Friday night that up to this time only about forty have signed the membership roll out of about 200 eligible.

After the adoption of the constitution and by-laws at the meeting on Friday night the principal part of the time was given up to a discussion of suggestions made for general improvements and bettering of conditions in the city. A number of suggestions were made in addition to the ones on which action was taken, among them being one that a solid sea wall be built about 40 feet out from the present wall and a deep channel be dredged out to permit yachts to come in to the wall at any point along Beach street. As the channel is dredged out the space between the present sea wall and the new one could be filled in and later made an addition to the present river front parkage, adding much to the beauty of the city.

One suggestion was that efforts be made to bring Northern settlers here to purchase and settle on the unused land lying back of Daytona, the idea being that permanent settlers are what are needed to build up this section of the country.

The suggestion that the river front parkage should be kept clean and attractive for visitors and made an inviting place to rest caused considerable discussion, the sentiment being that the parkage should be thoroughly cleaned up, planted to Italian rye and that cement walks be laid through it, leading to benches and seats under the trees and on the bank of the river.

Electric lights at the F. E. C. depot caused some discussion and it is probable that definite action in this direction will be taken in the near future.

The permanent committee provided for in the new constitution and by-laws were not appointed by President Rowe at the meeting, but were announced by the head of the board of trade today, the membership being as stated above.

FROM OBSCURITY TO WEALTH.

The bank is personally interested in every man who comes in contact with it and this has kept many a man from dishonesty who cared little for the admonition of a bishop. Because the business of a bank can be successfully conducted only with honest men the bank becomes largely a conservator of public morals in the community and presents such inducements to honesty that none but the most dishonest would disregard them. The bank is personally interested in every man who comes in contact with it. Encouragement is offered to the prudent, the industrious and the honest, but the spendthrift, the careless and the untruthful find the banker a very "cold proposition." Many a man has risen from obscurity to wealth because of faith he inspired in his banker by his unswerving moral integrity. The banker loaned him money on his good name, and it proved so valuable an asset that he not only kept on, but spoke well of him to others thus enabling him to establish a very high degree of credit. It always pays to "note fair" with your banker. He is your best business friend. We have money to loan to men of good character.

DELAND, the county seat of Volusia County, is situated 23 miles southwest of Daytona and is reached from the latter city by an excellent hard-surface road recently constructed. At Deland is located the John B. Stetson University, one of the leading educational institutions of the South. Because of the interest in matters educational Deland is known as "The Athens of Florida." Stetson University has a faculty of 50 professors and instructors. There are over \$400,000 in buildings and equipment; nearly \$300,000 endowment; a Carnegie Library alone representing an investment in building, endowment and books, of more than \$120,000. The library is the United States Government depository for the State of Florida, and contains over 15,000 volumes. Science Hall, one of the newest of 16 buildings, with its furnishings, represents an outlay of \$60,000. Elizabeth Hall is one of the most beautiful college buildings in the South.

The city has a population of about 3,500, with a thickly settled country adjacent. Deland proper is five miles east of the St. Johns River, on the high, rolling pine land of the great "Orange Ridge" of Florida. The "predominant products are oranges and grapefruit, the estimated crop from this vicinity being over 300,000 boxes this year. Grapes, peaches, pears, Japan persimmons, plums, pecans, guavas, strawberries and other fruits are grown in plenty. In the way of public improvements are many miles of fine shell roads, an excellent high school, electric lights, a system of waterworks that is owned and operated by the city, supplying the purest water at little cost.

Nine houses of worship testify that Deland is a church-going community. Baptists, Episcopalians, Methodists (Northern and Southern), Presbyterians, Christians and Catholics, besides colored Baptists and Methodists, are represented. The graded school offers a ten years' course, and the building which it occupies is newly furnished throughout, and is one of the most commodious and best equipped public schools in the State.

The trip from Daytona to Deland is made by automobile in a little over an hour, and there are many pretty drives in the vicinity of the county seat. A good road leads to DeLeon Springs, five miles, a historic spot, where 60,000 gallons of water bubble from the earth every minute. From Deland automobiles go south to Osteen, 18 miles, on shell and marl roads; the St. Johns is crossed by ferry near Osteen and cars can then continue to Sanford and Orlando by hard road. There is a shell road from Deland to Orange City, five miles, and a good road from Deland to Lake Helen, a like distance.

A large lumber mill and the largest brick plant in the South are located at Lake Helen.

ORANGE CITY
The principal attraction around Orange City is the many handsome golden orange groves. The town is supplied with water said to be the purest in the world, another attraction to visitors. It is at Orange City that passengers over the Florida East Coast Ry. transfer to carriages and drive to Deland. The town is surrounded by land peculiarly adapted to the cultivation of citrus fruits.

fact must be apparent to the most superficial observer. With such lavish wealth of natural beauty it became an easy thing for the hand of man to give the finishing touches which have wrought out the colors and outlines of the big picture.

Man did all this in the laying out of the streets with their wide margins of parkage. The entire city becomes a great park, with driveways intersecting, miles upon miles of driveways so good as to attract motorists from all over the continent.

And as for the pavements, pavements that look and act like granite—where else between the eastern and western seas are so many miles in proportion to, inhabitants? The pavement question stands with the street as one of the chief drawing cards. Till some unheard of place reports more and better, Daytona throws down the gauntlet to the world.

Squirrels, Flowers, Birds and Fruit.
Whatever one's shortcomings and however indifferent or even callous one may be to many things, the mere mention of "flowers and squirrels, birds and fruits" will send a thrill that is reflected in distended pupils and pricked ears.

For every visitor with a spare goober there is a bunny ready to come and accept your gift. He will sit bolt upright and know into the meat, casting furtive, saucy glances at you meanwhile.

Flowers. Usually fresh and blooming the year 'round, you are reminded of Goldsmith's complex where smiling spring's earliest visit paid and summer's lingering blossoms are delayed.

In one yard roses of variegated hues predominate; another household has a penchant for the poinsettia and the premises are aflame; another is hidden in a jungle of tall cane. Variety is the spice of life and here is where you find it.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture.

As for fruits, choice citrus fruits, Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes, which for beauty, prolificacy and all desirable qualities would truly astonish you.

The Fastest Autos and The Finest Out.

The seventh world wonder, do you ask? Come, whether from Missouri or from Maine, from Kalamazoo or Timbuctoo, and you will be "shown." Here is where the world's record for speed is broken with every recurring season. Autos, the fastest, the fastest, and the finest are on daily parade and the big show is as free as the pure artesian water from the thousands of flowing wells. It is a continuous show with a constantly shifting scene.

Everything goes, from a 2-horse power up to a 20-horse power, and all degrees of speed from a canter to a two-mile-a-minute clip. You will probably catch the spirit, when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the sparkling fountain water is free and you will have to go down into your wallet only for coin for auto, and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and holding them enthralled, it will charm and hold you. Come and see.

By L. C. DEMAREE.

One of Daytona's crowning glories is her incomparable beach. No one who has ever set foot upon its smooth, packed sands; no one who ever pedaled a bicycle over its expanse; no one who ever drove a prancing pair of horses and listened to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and surf-packed sand but realized that it is a world beater, a world-wonder. Go stand upon this wide speedway and see the happy souls flit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pellucid Halifax River.

Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy verandas looking out upon her bosom gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowy-winged sea birds, which sit about as if for the sport of bobbing upon the waves; watch that lubberly old white headed pelican pouch a fat mullet, and that fish hawk struggling upward with his floundering load he snatched from the water.

See the beautiful launches, spick and span, with hampers and lockers bulging with refreshments, both solid and liquid, ready for a cruise upon the beautiful surface. Take out your field glass and sweep the river from Ormond bridge to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood.

Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies and the wide spreading branches of the heavy-trunked live oaks extend their giant arms across the magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from the tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with silken draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in the most delightful settings.

See the glistening leaf of the grand magnolia which nature has varnished as no artist's brush ever could; and the cabbage palms with their burdens of showy fruit and swaying palms; see the lovely holly with its exquisite berry; see the climbing vines on riot in the trees; see the cryp-tocactus forms which gain a foothold on the great oaks and stately palms, and surely you will join in the chorus and say that this is a world wonder for beauty.

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps, commands more nearly universal attention and praise than does the artistic cottages. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and, as the architecture of one section of the country differs from the architecture of another so do our homes differ in outward appearance and structural beauty from one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by is treated to a kaleidoscopic change which keeps the mind wondering, "What next?"

It is not only the exterior of many of these homes which rivets attention; within they are models of convenience, and the finishing and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed, it is the interior arrangement and artistic furnishing and shading, more than the exterior appearance that gives a surpassing charm to Daytona homes. This feature justly merits prominence as another wonder.

Streets and Pavements the Most and Best.

Why the Architect of the Universe chose to give Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed, but that such is a

PICTURESQUE PORT ORANGE

PORT ORANGE is a pretty little village situated five miles south of Daytona on the Daytona-New Smyrna hard-surface road, the scenic highway of the East Coast. The town is located on the Halifax River, and is connected with the peninsula opposite by a bridge.

The town is well laid out and has many pretty homes. A large number of tourists and winter residents make Port Orange winter headquarters, one of the several attractions being the excellent fishing.

A short distance west of Port Orange are the remains of the old Dunlawton sugar mill, a place that is visited every year by hundreds of tourists. One time all the country west of Port Orange, surrounding the old mill, was a vast indigo and sugar cane plantation. The mill was operated extensively in those early days but has been in disuse for forty or fifty years.

A very interesting drive from Daytona is by ocean beach to the approach of the Port Orange bridge, across the field, and then passing through the principal street of Port Orange to the ruins of the old heated old sugar mill, returning to Daytona by the road on the mainland.

ALL THE WAY TO DAYTONA IN AN AUTO.

MAKES TRIP FROM NEW YORK TO LOOK OVER THE COUNTRY.

PARTY STOPS OVER NIGHT HERE AND LEAVES THIS MORNING FOR TRIP DOWN COAST TO MIAMI.

Having made the entire trip from New York to Daytona in a 30-50 horsepower Packard automobile, a party composed of Mrs. E. F. Wallace, Mrs. J. H. Wallace, Mrs. J. F. Sullivan, Mrs. T. H. Clark and C. B. McCorkle, arrived here Friday night and left Saturday morning for Miami.

None of the party has ever before visited Daytona, except Mrs. E. F. Wallace, who was here for a short time 31 years ago. The younger women are all personal friends of Mrs. W. W. Hilyard, with whom they attended school, and while in Daytona the party remained as guests at the Prince George. They were all delighted with the city and unanimous in the opinion that Daytona is the prettiest place on the map.

They anticipate a hard trip to Miami, but hope to reach their destination without mishap. They will spend a short time in the southern part of the state and then return to Daytona for another visit before starting on the return trip to New York.

The party left New York January 15 with fair weather and excellent roads. They made good time and traveled during the day, stopping over in the cities enroute at night. They followed the automobile blue book course via Philadelphia, Harrisburg, Washington and down the national pike to Staunton, Va., where they encountered the roughest roads of the entire trip.

In crossing the Blue Ridge mountains and the many hills in Virginia, the fair weather which prevailed had melted the snow making the roads extremely sluggish and hard on automobiles for hill climbing. Mr. McCorkle, who drove the big car,

was advised not to attempt to make the trip but he took a chance and was successful although it was rather slow going and at times the car plowed its way through mud and slush up to the axles.

They experienced some difficulty in making headway leaving Savannah as frequent stops were necessary at bridge crossings. In several places Georgia convicts were engaged in repairing bridges and in one instance Mr. McCorkle jumped out of the machine and assisted the men in placing logs and timber across the bridge so they could pass over.

Leaving Darien they arrived in Brunswick in time for dinner and left immediately for Jacksonville, as there were anxious to get there before dark as the roads are not properly marked or distinguishable at night for drivers who are unfamiliar with the surrounding country.

The party enjoyed the trip immensely and saw a great deal more of the country than would be possible traveling by train. The car is in excellent condition, notwithstanding the hard service it has endured and only had one punctured tire during the entire trip, which is quite remarkable considering the hundreds of miles traversed over the rough and stony roads. The party will return to New York in their machine, going by the way of Jacksonville and Atlanta and the proposed New York and Atlanta highway.

A SUGGESTION FOR DAYTONA FOR THE BOARD OF TRADE.

SOMETHING THAT HAS BEEN ACCOMPLISHED FOR TAMPA BY THE CIVIC ORGANIZATION IN THAT CITY.

Nothing has had a more beneficial effect in protecting Tampa business men from the designs of those who live by their wits than the campaign adopted last year by the board of trade against advertising fakirs.

The board of trade, it will be remembered, appointed a committee on advertising schemes, and resolved that its members should not patronize any advertising scheme not endorsed, after investigation, by this committee.

Placards were posted in offices of the members of the board, and when the glib-tongued faker made his appearance without the required credentials, he was politely referred to the placard. This saved the merchant

further annoyance and the loss of valuable time, and also saved the faker the loss of his time, not so valuable.

This tourist season, as a result, Tampa has been remarkably free from the visitations of this class. They have passed the word around that the city is a hard proposition for them, and consequently they have given Tampa a wide berth. However, one or two such schemers have appeared in the city and, although failing to receive the indorsement of the board of trade committee, they have gone ahead and endeavored to "rope in" the gullible business man.

The business man who patronizes such schemes throws what influence he possesses against the efforts of the board of trade to protect the people of Tampa from such worthless expenditures of money. If one such faker comes here and prospers, he will give out his experience, the scheming fraternity will restore Tampa to its list, and we will have another flock here.

Business men ought to stand by the agreement made in this matter and ought to require the indorsement of the board of trade committee before permitting the advertising faker even to take up their time.—Tampa Times.

Excellent Hunting and Fishing
NEW SMYRNA, FLORIDA

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in stately grandeur during the lapse of bygone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the state of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accommodations to meet your requirements.

Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the state is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

JUST GOSSIP

BY THE GOSSIPER.

The first meeting of the new board of trade Friday evening was a busy one and the civic body has a lot of work before it if all the suggestions made by the members at this session are acted upon and carried out. The organization is starting its career in the right spirit and with the idea that nothing for the good of the city is too big to be tackled. The one big idea which faces the members of the board at this time is that some kind of entertainment should be provided and that the city should be made attractive and pleasant for the tourists who are now spending the winter season here. Following out this idea arrangements have already been started for additional lighting on Beach street and a series of entertainments of fireworks will be provided one evening each week. This, it is hoped, will be a means of advertising which will bring results as the tourists will be furnished with some kind of amusement, will be pleased with their stay here and will want to come again, bringing their friends with them. With the present good set of officers and permanent committees at the head of the organization the future looks bright, but the officers and committees can not do all the work. They must have the full support and help of every member of the new board and have a right to expect that every business man and business firm in Daytona and its suburbs will put a shoulder to the wheel and push.

An Oversight.

A glutton once made a bet that he could eat ten apple dumplings at one sitting if the other party would pay for the accompanying wine. After the ninth dumpling, however, he declared himself beaten. Sadly he regarded the tenth dumpling, which still rested on his plate. Shaking his finger at it, he said: "Ah! If I'd known you'd be left over I'd have eaten you first."

Not Popular.

"I'm going to wake 'em up when I get into office," said the enthusiastic young politician.
"Well, son," replied Senator Sorghum, "an alarm clock may be useful, but it isn't very popular."—Washington Star.

UPSHAW LECTURE WELL ATTENDED FRIDAY NIGHT.

NOTED LECTURER HELD AUDIENCE SPELLBOUND FOR MORE THAN AN HOUR AT THE DAYTONA THEATER.

Will D. Upshaw, the noted Georgia editor and lecturer, was greeted by 200 or more of Daytona's citizens and visitors at the new Daytona Theater last night, who were attracted there to hear this eloquent speaker and find out what was under John's Hat.

The speaker soon disclosed that John's Hat covered the ideal citizen and the whole lecture was a strong appeal for better citizenship, breathing patriotism throughout, and making an appeal for prohibition at the same time.

The lecture was interspersed with just enough wit and humor to keep the audience in a pleasant state of anticipation and there was no lack of interest up to the very last.

Mr. Upshaw, although a southern man and a democrat, is a strong advocate of Negro education and believes in uplifting the race through proper religious influence.

Mr. Upshaw is a strong speaker with an excellent command of language and does not fear to state things as he sees them. Following the lecture he called attention to his paper, The Golden Age, an undenominational publication issued at Atlanta, Ga., and then announced his intention of remaining here throughout next week, having yielded to the urgent invitation of Pastor A. Lincoln Abercrombie and his people to spend a week in evangelistic services and has turned aside from his platform work to accept the invitation.

Although not an ordained minister this prominent man and earnest layman has conducted meetings of remarkable power and beginning Sunday morning he will be heard with delight by the people of Daytona and vicinity.

Mr. Upshaw will speak Sunday afternoon at 3 o'clock at Wamans' opera house, Seabreeze.

Why He Wanted References.

At a credit men's dinner one of the veterans told this story: "In the reconstruction days a man from a Mississippi valley town came to our western house one day. We had sold him before in a small way, and he always paid. He had enlarged his business, he told us, and wanted a bigger line than usual, but before making his selections he wanted us to give him references. We expressed surprise at such an unheard-of demand, but he said, 'My two brothers-in-law have gone in with me and they're very particular as to whom they do business with.' So we sent him to our bank, and he came back, said we were all right, picked out a line of goods, and in sixty days he 'busted.' We couldn't collect a dollar. Two years later I met the man in Cleveland and told him we had become reconciled to our loss. 'But will you please tell me,' I asked, 'why did you want references as to our credit?' 'Well, you say he answered, 'I wanted to know if you could stand it.'—Exchange.

No Law's Delay Here.

In Perak, in the Malay peninsula, lawyers find no business, for a modified form of trial by ordeal decides all disputes. In place of the legal practitioner the pleader is a native boy who is assigned to one or the other of the sides and is given a bamboo tube in which is sealed the pleading of the person or party whom he represents. When all is ready two stakes are driven into the bed of a stream, and by aid of a bamboo pole the heads of the two boys are submerged at the same time. By grasping the stakes they are enabled to remain under water for quite awhile after their natural inclination would bring them to the surface, but at last one of them gives in and, releasing his hold of the stake, comes to the air. He is immediately seized, and the tube he holds is cast aside. The other lad is led ashore, his tube opened, and the document contained therein stands as the decision in the case.

It Depends.

"Do you think a man should take his wife into his confidence regarding his business affairs?" asked the man who had just been married.

SEABREEZE and DAYTONA BEACH, two enterprising and progressive towns on the Halifax Peninsula, are geographically one although incorporated as separate municipalities. The towns parallel the peninsula north and south for a distance of from three and one-half to four miles, and extend east and west from the surging seas of the Atlantic Ocean to the Halifax River, the beautiful tide water stream that sets them apart from Daytona with which they have close communion by means of three bridges, as well as a half-hour ferry service.

Seabreeze and Daytona Beach are essentially summer and winter resorts and are making hundreds of new friends every year among those who desire to escape the discomforting extremes of heat and cold, and their hotels and boarding houses are now receiving splendid patronage from the most discriminating class of tourists.

The ocean itself, with its marvelous beach, hard as macadam and smooth as a floor, is the greatest attraction, although earth, air and sky seem to have entered into a combination to enhance its every charm. The beach is the famous automobile race course where every world's straight-away record has been made, and all these records it continues to hold without rivalry.

The beach has a width of 300 to 500 feet and can be used from two hours after until two hours before high tide, thus giving an average of seven or eight hours for automobilizing some part of each day.

Seabreeze and Daytona Beach each have a permanent population of approximately 1500. Sanitary ordinances are strictly enforced, streets and sidewalks are well kept, and new streets are being opened as fast as the increasing population demands. Besides hotels and boarding houses there is ample cottage accommodation for all winter visitors in both towns.

All the attractiveness of Seabreeze applies to Daytona Beach, the two towns being so similarly situated. The development of Daytona Beach has been fully as phenomenal as its sister on the north, and each year there is a substantial growth. The great sand dunes have been leveled and handsome homes have been built for both winter and all-year-round occupancy.

INVITATION DANCE AT THE PALMETTO CLUB HOUSE.

GIVEN BY MISS MARGARET SHIELDS IN HONOR OF HER HOUSE GUEST, MISS JOSEPHINE WILBERT OF PITTSBURG, PA.

Among the most delightful of the social events of the past week was the dance given last night at the Palmetto Club house on Orange avenue by Miss Margaret Shields in honor of her guest, Miss Josephine Wilbert, of Pittsburg, Pa., who is spending the season with Miss Shields at her home on Volusia avenue.

Some sixteen or eighteen couples participated, the young people including both visitors and residents, and the dancing was continued until sometime after midnight. The program of 24 numbers consisted principally of round dances, mainly the two-step and waltz and the intermission was pleasantly passed in the enjoyment of refreshments, served in the dining room, adjoining the main room, which was tastefully decorated with palms and bamboo. Tucker's orchestra furnished the music for the occasion.

Bishop Gray will make his usual visitation at Grace church, Port Orange, Monday at 7:30 p. m.; Grace church, New Smyrna, Tuesday, at 7:30 p. m.

Berlioz.

Berlioz, the famous French composer, was made miserable by his wife. He married Miss Smithson, an actress, many years younger than himself. She had prolonged fits of jealousy and ill temper, ruined him by her theatrical ventures and finally fell from a carriage and broke her leg, thus ending her artistic career. Berlioz bore with her in patience until she finally left him. He was a tall man, of stern aspect and very dignified. In spite of his immense musical abilities as a composer he could play no instrument except the guitar, and that very badly.

Almost Irresistible.

An afternoon long to be remembered was spent by the following party: Mr. and Mrs. Burden, Mr. and Mrs. Robt. Young, Mr. and Mrs. Charles Fengar, Mr. and Mrs. Jas. Bryden, Mr. and Mrs. R. G. Johnson, J. E. Baldwin, Mesdames Dooley, Jackson and Bates and Mr. Scobey.

ORMOND-ON-THE-HALIFAX

ORMOND is 5 miles north of Daytona, located on the west bank of the Halifax River. The location of the town permits of good drainage and perfect sanitation; the elevation is superb and ideal for winter homes. A wide bridge connects Ormond with Daytona Beach.

Many fine homes are maintained on either side of the river, most of them surrounded by sub-tropical flora and shrubbery, besides thrifty orange and other citrus fruit trees.

Ormond has many attractions—excellent automobilizing, good fishing, safe boating, and many pleasant drives.

At Ormond Beach is located the large Hotel Ormond, and its lesser sister, the Ormond Inn. The Ormond occupies a position overlooking the Halifax, and the latter has as its outlook the magnificent beach and the broad Atlantic.

Besides the broad, smooth beach there are many drives for carriages and automobiles around Ormond—drives to and through groves of golden oranges; drives through tropical forests to Spanish ruins; drives to the ancient Causeway built by slaves of planters of long ago, and drives to the plantations of notable settlers.

Waste places are replete with the interest of Southern ferns and flowers. One of the most interesting of these plantations is at the headquarters of the Halifax and known as Moundgrove. It is one of the finest orange groves on the East Coast of Florida and is amid very pretty surroundings. Moundgrove is on the Daytona-Saint Augustine road.

Made Him Cross.

"I made my husband cross this afternoon," said Mrs. Callier.

"How was that?" queried Mrs. Homer.

"He was on the opposite side of the street, and I beckoned him to come over," explained the other.

SEABREEZE, Feb. 4.—Frank R. Laughlin, who now has entire charge of the Sonntag Investment Co.'s business, has opened his office at their former place of business on Ocean boulevard, next to Williams' store.

C. F. Burgman's handsome new boat, Southland, will soon be in commission. Mr. George has chartered the boat for its first excursion and has invited a party of friends from the Hotel Clarendon and Princess Isena to make the trip with him.

A very elegant afternoon tea was enjoyed by a party of Michigan people, Mrs. Church, of Kalamazoo, Mich., the hostess, on Ocean boulevard Saturday afternoon. Those enjoying the hospitalities of the occasion were Mr. and Mrs. Brooks, Mich., Mrs. Wilbur of Kalamazoo, Mich., Mrs. McCortie of Marshall, Mich., and Mr. and Mrs. Herbert George, formerly of Denver, Colo., formerly of Jackson, Mich. The company was composed of guests of the Clarendon and the Princess Isena.

Mr. Weitzel, who suffered a paralytic stroke some three weeks ago, is recovering, and is now well enough to be up and about in his room part of the day.

Miss Mary Evernden is organist at the Seabreeze Congregational church. She is meeting with splendid success in her efforts to provide good music at the services. Last Sunday morning, C. H. Willson with his cello was an appreciated addition to the orchestra, and a vocal solo by Prof. Watkins was much enjoyed.

A reception will be held at the church from 3 to 5 o'clock to give Rev. E. J. Ranslow and wife an opportunity of meeting his congregation and the peninsula friends generally. Everybody is cordially invited. Refreshments will be served.

Mrs. Kate Haney returned Saturday from Marietta, where she has been visiting her daughter, Mrs. Jas. Bargett and family. She will assist Mrs. J. W. Williams in her dress-making rooms on Pinewood avenue.

Miss Lucy Cloyd, who is spending the winter in Florida, arrived Wednesday from Miami and is at the Mayfield.

W. L. Biggers, who was here on his annual ten days' vacation with his mother, Mrs. George W. Buckner, left Saturday on his return to Germantown, Ohio. Mr. Biggers is a prominent railroad man.

Mr. and Mrs. A. P. Horton of Indianapolis, Ind., are expected here by next week on a visit to Mr. and Mrs. Buckner. Mrs. Horton is Mrs. Buckner's daughter.

Furniture for T. W. Weaver's new cottage on Grandview avenue has arrived and Mr. and Mrs. Weaver will move in this week. They leave their beach cottage in possession of Mr. and Mrs. Frank Clark, and their friends, Mr. and Mrs. George Darby, who recently joined them from Georgetown, Ohio.

N. H. Larry and family of Champaign, Ill., have rented and are now occupying the Oliver cottage on the beach. Captain Olliver is at Palm Beach engaged in the life saving service.

John T. Crouch, who was visiting his sister, Mrs. T. W. Weaver and husband on the beach, took regretful leave last Thursday on his return to Ohio. Mr. Crouch was delighted with the climate and the attractions of City Beautiful.

A lot on Valley street belonging to H. F. Martindale, generally known as the John Dorsett place, was purchased Monday by Lewis H. Ayers, Mrs. Robt. C. Holmes' father. Mr. Lewis is having the lot cleared and graded to build a winter home, and is considering plans for building.

Herbert T. Wetherby's river front home and the Wetherby homestead on Valley street was sold to James E. Thompson of Cincinnati, Ohio, this week. Mr. Thompson and wife are guests at Prince George, Daytona, and it was through their friends, Mr. and Mrs. A. Ayres, that they became interested in peninsula property. It is understood that Mr. Thompson will erect a handsome winter home on the Valley street front, and that the smaller buildings will be converted into garage and servants' quarters. This property is very favorably located with a frontage of 100 feet on street and river, and a depth of 400 feet.

His Way of Getting Even.
"You know that fellow, Jim McGroarty, the lad that's always comin' up an' thumpin' ye on th' chest and yellin' 'How aer ye?'"

"I know him."

"I'll bet he's smashed twenty cigars for me—some of 'em clear Havannys—but I'll get even with him now."

"How will ye do it?"

"I'll tell ye. Jim always hits me over the vest pocket where I carry me cigars. He'll hit me there just once more. There's no cigar in me vest pocket this mornin'. Instead of it there's a stick of dynamite, d'ye mind?"—Cleveland Plain Dealer.

A Matter of Business.
"I cannot understand, sir, why you permit your daughter to sue me for breach of promise. You remember that you were bitterly opposed to our engagement because I wasn't good enough for her and would disgrace the family."

"Young man, that was sentiment; this is business."

MILITIA IS ORDERED OUT TO PREVENT A LYNCHING.

THOUSAND ARMED MEN SEARCHING FOR NEGRO WHO KILLED DEPUTY AND WOUNDED CHIEF OF POLICE.

RALEIGH, N. C., Feb. 4—Governor Kitchen has ordered a company of the second regiment of the state militia to report to Sheriff Wilson at once to prevent the lynching of a negro desperado, Louis West, who late yesterday killed Deputy Sheriff George Munford and seriously wounded Chief of Police Glover while resisting arrest. Nearly a thousand armed men are searching for the negro today.

BIRTH OF A WING.

Evolution of the Aquatic Pupa Into the Dragon Fly.

Says a writer in the Scientific American: "A wonderful spectacle is presented by the sudden apparition of an insect's wing at the completion of its metamorphosis. The transformation of the grub into the butterfly, though familiar, is none the less amazing, but the evolution of the active and gossamer winged dragon fly from its ugly and sluggish aquatic pupa is still more impressive. Early on a May morning the pupa emerges from its cocoon at the bottom of a ditch, swims on its back by paddling with its long haired paws to the stem of an aquatic plant and climbs up out of the water. Then, after a momentary pause, the skin suddenly bursts open and the perfect insect appears, with closely folded wings, which soon unfold and assume their final form.

"The older naturalists thought that the insect 'swallowed air,' with which the wings were inflated. In reality the air is absorbed in the digestive organs, causing an increased blood pressure, which mechanically expands the wings. The presence of dew is also necessary; hence the first flight is always made at dawn.

"This spectacle of the birth of a wing may be observed in dragon flies reared in an aquarium, the atmosphere of which should be moistened with an atomizer when the pupa rises to the surface."

Ego.

An ego is a Latinized I. All men are created egos and endowed by their Creator with certain inalienable something of which neither statute, ukase, edict, injunction, beggar, magnate, book agent nor promoter can deprive them. He who steals my purse steals trash, but he who filches from me my ego takes that of which he already has enough and makes me not at all.

Women without votes have egos and, strangely enough, would still have them if they secured the votes; hence egos are not a political issue.

An ego is what a man is when he has nothing and is nothing else; that is to say, he is then first person singular and no particular gender.

An ego is neither soul, body, spirit, family, country nor race. It is neither moral nor pathological. A criminal has just as much ego as a parson and no more. Some egos are better than others, chiefly our own.—Life.

Fifty Years Ago Today. Feb. 4.

Meeting in Washington of a peace conference representing thirteen free and seven border slave states. The conference assembled at the request of Virginia, which this day elected a Unionist state convention.

The Fourth of July of the Confederate States of America.

Delegates from six states which had seceded—that is, South Carolina, Georgia, Florida, Alabama, Mississippi and Louisiana—assembled at Montgomery, Ala., to form a new government. The declaration of Hon. Howell Cobb, the president, "We meet as representatives of sovereign and independent states, which have dissolved all political associations which connected them with the United States," and "We will this day inaugurate for the south a new era of peace, security and prosperity," was received with applause, and the convention then proceeded to organize as a congress.

THEY BORED HIM.

And They Came Mighty Near Boring Him Again With Lead.

The dread of boredom is strongly characteristic of the present age, but few hate it with such intensity as the artist who lived in Paris in the days of the commune and of whom C. E. Halle speaks in his "Notes of a Painter's Life."

"A friend of mine," says Mr. Halle, "told me that he was in the studio of an artist when it was visited by a detachment of soldiers. The usual question about the possession of arms was asked and answered in the negative, but one of the soldiers found a gun in the corner of the studio, and on his evidence the owner was told that he must come out and be shot. My friend was very fond of him, so he asked to be allowed to see the gun. It was given to him, and with the help of a pencil he passed his handkerchief a few inches down the barrel and brought it out brown with rust. He pointed out that if the gun had been used the inside of the barrel must have been black with powder and not brown with rust, so the artist was let off.

"My friend asked the artist why he had not himself suggested this simple test, and all the answer he got was: 'Oh, they bored me.' I would rather any day be shot than bored."

[A daily paper is responsible for the statement that the gum on English stamps is so pure that, far from causing harm, licking them is actually beneficial.]

Our William was as frail a child as ever, ever grew. A goose, however meek and mild, He barely dared to loo. But still we hoped the storm and stress of business life would serve To cure his chronic weakness. His total lack of nerve.

An office urchin's duties first Enrich his practice skill. And such upon our view there burst A transmuted Bill. Such benefits are his who dumps The gum the state employs. In May he started licking stamps. In June, the larger boys.—Punch
